

## Make Your Own Mask!

It is our responsibility to keep our community safe by wearing a mask whenever we are around each other but why not have fun wearing a mask? Design your own mask using a template provided by Vistaprint. Use the template on the previous page to draw, color, or collage your own mask. Do you need a fun mask in the spirit of Halloween? Do you want something to match your favorite outfit? Think outside the box, your mask can be other worldly, colorful, or anything you can dream to make. Express your unique style and fashion with this mask. Once you are done, simply upload your image to [vistaprint.com](http://vistaprint.com) to make your own mask!

**Step 1.** You can paint, color, collage, or draw your mask design using the template. We recommend to trace out what you envision first to make it your best.

**Step 2.** Use the full area in your design, but keep any details you want seen like text or an animal nose in the center of the template.

**Step 3.** Take a picture and upload your design to [Vistaprint.com](http://Vistaprint.com)
